PROJECTS

Cortex

April 2026 – Present

Next.js 16, React 19, TypeScript, Prisma, PostgreSQL, NextAuth.js, Tailwind CSS

 [Live Demo](#)

Architected a high-performance multi-tenant SaaS Event Management platform handling complex event lifecycles, real-time ticket inventory tracking, and organizational memberships.

Engineered concurrent, transaction-safe database workflows using Prisma ORM and a PostgreSQL adapter to eliminate overbooking conditions during high-volume checkout instances.

Implemented secure dynamic session validation and cross-tenant routing guards by leveraging edge-network NextAuth middleware structures.

Optimized build delivery, hot-reloading speeds, and incremental static generation configurations by integrating Next.js Turbopack pipelines.

DevLinks

April 2026

Next.js, TypeScript, PostgreSQL, Prisma, NextAuth, Tailwind CSS

 [Live Demo](#)

Architected a multi-tenant link management SaaS platform featuring custom onboarding and username reservation system.

Implemented secure multi-provider authentication using NextAuth.js, supporting OAuth (Google, GitHub) and Credentials.

Designed relational database models with Prisma ORM to efficiently store user profiles and support dynamic link management.

Optimized application build stability by decoupling Client Components using React Suspense boundaries for pre-rendering.
